

U.S. Internship Opportunity

Fraunhofer Center for Experimental Software Engineering

We can offer you:

- A 6-month paid internship in the U.S. (March – August, September – February)
- Receive course credit for internship participation (requires University approval)
- Opportunities to prototype product ideas and industry solutions with cutting-edge technologies
- Experience in researching and developing practical software engineering tools and techniques
- Chances to apply industry best practices in software development and engineering
- Ability to contribute to mission-critical projects (e.g., NASA) and systems in fields such as:
 - Aerospace
 - Automotive
 - Medical
- A location that is close to Washington, DC, and the University of Maryland

We expect from you:

- Enrollment as a current student (undergraduate, masters, or doctoral) in Computer Science or related field
- Strong programming skills—knowledge of mobile and web development a plus
- Motivation to continuously perform, learn, and improve

About us:

The Fraunhofer Center for Experimental Software Engineering (CESE) is a not-for-profit applied research and technology transfer organization affiliated with the University of Maryland. CESE is part of Fraunhofer-Gesellschaft and conducts joint research with the University of Maryland. Our mission is to advance real-world software practices via empirically validated research into software engineering technologies and processes.
